

Kurumsal Açık Erişim Arşiv Sistemlerine Veri Giriş Eğitimi

KURUMSAL ARŞİVLERİN KAYIT EDİLECEĞİ HARMANLAMA VE LİSTELEME REHBERLERİ

Gültekin Gürdal – İYTE
Sönmez Çelik – Doğuş Üniversitesi

Amaç

- Türkiye'de araştırma çıktılarının görünürlük ve erişilebilirliğini teşvik etmek
- Ulusal bilimsel çıktılara elektronik erişimi sağlamak
- Türkiye'yi uluslararası girişimlere entegre etmek

Açık Erişim Nedir?

“Bilimsel literatürün İnternet aracıyla finansal, yasal ve teknik bariyerler olmaksızın, erişilebilir, okunabilir, kaydedilebilir, kopyalanabilir, yazdırılabilir, taranabilir, dizinlenebilir, tam metne bağlantı verilebilir, yazılıma veri olarak aktarılabilir ve her türlü yasal amaç için kullanılabilir biçimde kamuya ücretsiz açık olmasıdır”

Neden Açık Erişim?

Yayının:

- Erişim hızını artırır.
- Görünürlüğünü artırır.
- Dünya çapında etkisini artırır.
- Keşif / Yeni araştırmaya olanak sağlar.
- Daha iyi değerlendirme, daha iyi izleme, daha iyi araştırma yönetimi sağlar.

=> inovasyon, prestij, fon

Açık Erişim Nasıl Sağlanır?

- **Kişisel arşivleme (Yeşil yol):** Yazar hakemli yayınının elektronik bir kopyasını kurumsal bir arşivde ya da konu arşivinde arşivler. Bundan sonra bu yayına herkes ücretsiz erişebilir. Bir arşiv, kurumun bilimsel çıktılarını yönetme, koruma ve sergileme olanağı sağlar. Bir kurumun araştırma bilgi sisteminde ve değerlendirme sürecinde arşiv değerli bir araçtır ve bilimsel topluluk için katma değerli hizmetler sunar.
- **Açık erişim yayıncılık (Altın yol):** Yazarlar bilimsel eserlerini açık erişim dergilerde ya da monografi dizilerinde yayımlar. Bu yayınlara İnternet'e bağlı son kullanıcılar ücretsiz olarak erişebilirler. Telif hakkı genellikle yazarlarındır. Açık erişim yayınlar ücret ödenerek erişilen yayınlarla aynı süreçleri izler (örneğin, hakemlik), ama yayınların içeriğine açık erişim sağlar. Bir yayının kalitesiyle bu yayına erişim şekli arasında bir ilişki yoktur.

Kurumsal Arşivin Faydaları Nedir?

- Bilimsel faaliyet çıktılarını dünyaya açar
- Çıktıların görünürlüğünü ve etkisi artırır
- Üniversiteyi potansiyel paydaşlara tanıtır
- Dijital çıktıları toplar ve yönetir
- Araştırma ve öğretim faaliyetlerini yönetir ve ölçer
- İşbirliği çalışmalarını destekler
- Disiplinlerarası araştırmalar için çalışma alanı sağlar
- Dijital öğretim materyallerinin geliştirilmesini ve paylaşımını kolaylaştırır
- Öğrencilere bilimsel gelişimlerini destekleyici içerik ve çalışmalarını paylaşacak platform sunar

Kurumsal Açık Arşivin İçeriği Nedir?

- Makaleler
- Ön baskı (pre-prints)
- Son baskı (post-prints)
- Tezler
- Proje çıktıları
- Kitap/kitap bölümleri
- Konferans bildirimleri/sunumlar
- Teknik dokümanlar / klavuzlar
- Veri setleri
- Öğrenim nesnelere

Başarı Faktörleri

- Birlikte çalışabilirlik
 - Validator & Driver rehberleri
 - Varolan standartların kullanılması
- Topluluk
 - Yardım masaları ve eğitim
 - AE savunuculuğu
- Entegrasyon
 - Araştırma sisteminin parçası olan kurumsal arşivler

Thank you for taking the time to suggest a new entry for the Registry of Open Access Repositories.

Creating a new entry involves several steps. Fill in the information you know on each page and then click **Next >**. If you don't know something, don't worry, only fields marked with a star are required. When you have finished click **Deposit** to submit your record for editorial review.

If you don't have all the information required click **Save and Return** which will save the record in your *Manage Entries* screen.

Fields marked with a star (★) must be completed before you submit

★ **Home Page**

The URL of a page describing the repository (e.g. its home page).

OAI-PMH Interface

The URL of the repository's Open Archives Initiative Protocol for Metadata Harvesting interface. This will be used to track record counts. This should be the *base URL* of your OAI interface, do not include any arguments.

E.g. `http://myrepo.org/cgi/oai`

Repository Type

The type of repository. This is defined by who may deposit work in the repository e.g. predominantly only members of the institution.

- Research Institutional or Departmental**
A repository that accepts contents from users based on their affiliation, typically a Higher Education institution.
- Research Multi-institution Repository**
A single repository that acts as a central resource for many institutions. Defined by a closed set of institutions, not a specific, single discipline.
- Research Cross-Institutional**
A collection of research material that is defined by its research field, rather than by the bounds of a single institution. Deposits are typically made by researchers working in that field.
- e-Journal/Publication**
An Open Access electronic journal (should at least provide an OAI-PMH interface).
- e-Theses**
Most content is electronic theses and dissertations.
- Database/A&I Index**
An Abstracting and Indexing database or similar collection of publication metadata.
- Research Data**
A repository that holds research data.
- Open and Linked Data**
A repository that deals with open data - usually administrative, organisational or government data.
- Learning and Teaching Objects**
Most content is teaching and learning resources intended for use by students (vs. research materials).
- Demonstration**
A repository that is publicly available but is currently under testing or not yet available for users to deposit in.
- Web Observatory**
A specialist repository used by the Web Science community to exchange web observation data
- Other**
Something within the scope of the registry, but not covered by the other categories.

Title

The human-readable name of the repository. Do not include a trailing full-stop. *ROUVe: Research Online at the University of Vowels*

Kayıt formu:

<http://www.openarchives.org/Register/ValidateSite>

Data Provider Validation and Registration

Please enter base URL of the repository to be validated and/or registered:

Validate only (may register later) Register this site (or update existing registration)

Note that the base URL you enter here must EXACTLY match the base URL returned in the Identify response. It must match in case (<http://Wibble.org/> does not match <http://wibble.org/>) and include any trailing slashes etc.

Submitting this form will make some initial tests of the validation of the base URL you have submitted and then send an email to the adminEmail address specified in the Identify response. The email will contain a URL to confirm the request to validate and/or register the repository. This procedure has been adopted so that only the administrators of a repository can run the validation and registration tests.

If you want to update an existing registration where the base URL has not changed then simply use this form and re-run the registration process. If you have changed the base URL then please send email to openarchives-l@cornell.edu with details of the change.

re3data.org Registration Policy

To be registered in re3data.org a research data repository must

- be run by a legal entity, such as a sustainable institution (e.g. library, university);
- clarify access conditions to the data and repository as well as the terms of use;
- have an English graphical user interface (GUI);
- have focus on research data.

A research data repository is a subtype of a sustainable information infrastructure which provides long-term storage and access to research data that is the basis for a scholarly publication. Research data means information objects generated by scholarly projects for example through experiments, measurements, surveys or interviews.

A research data repository listed in re3data.org is either:

- a data provider if it offers research data and its metadata (ideally exposing metadata via interfaces),

and/or

and/or

- a service provider (e.g. a portal) if it harvests the metadata of research data from data providers as a basis for building value-added services.

To be listed in re3data.org a research data repository has to provide an English GUI containing basic information about the scope of the repository.

For the re3data.org research data repository registration workflow see our [FAQ](#).

If you find a research data repository missing from our list, we are open to suggestions. Please use the following form:
