The authors regret that some errors were identified in 'figures 12 and 13' on pages 14 and 15, in the published manuscript concerning fluorescence microscopy images of Saos-2 and SW1353 cells on scaffolds for 1 and 3 d of incubation. The fluorescence images in figures 12 and 13 were mistakenly used as duplicated due to the inadvertently mislabeling dur-

ing the processing of files and integrating them into the final figures. Intensity data regarding corrected fluorescence images were also measured and corrected. The revised figures (figures 12 and 13) and their captions appear below. The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way.

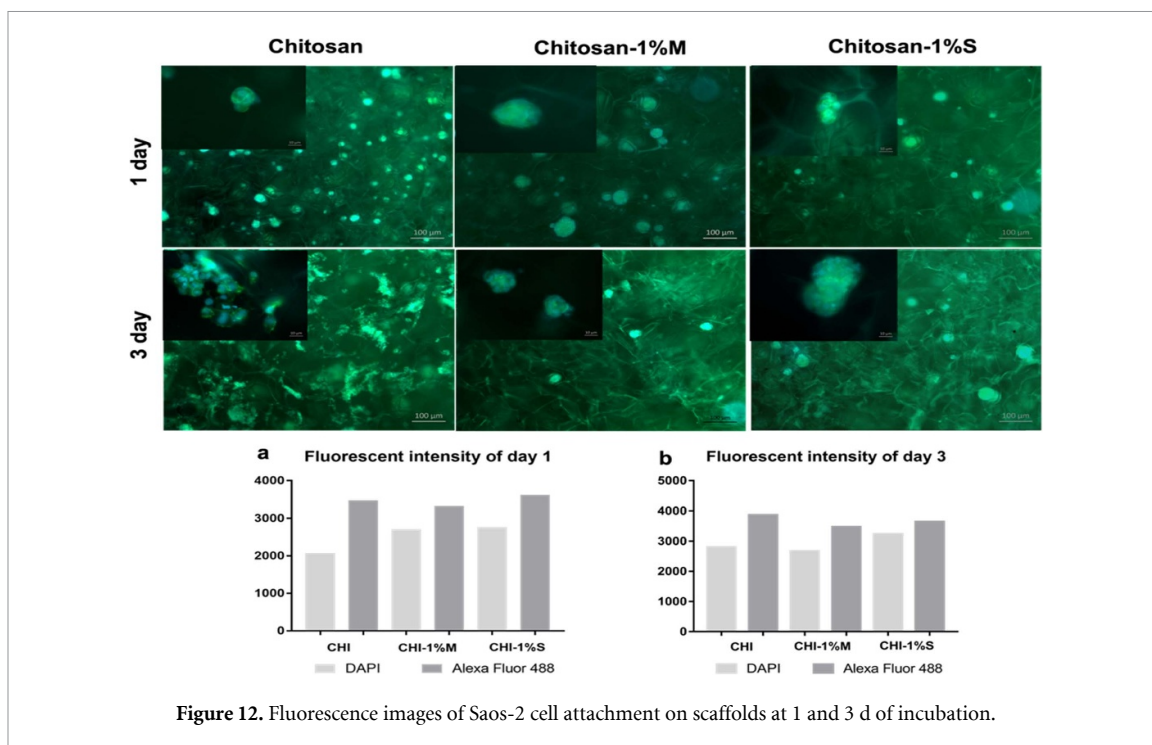

Figure 12. Fluorescence images of Saos-2 cell attachment on scaffolds at 1 and 3 d of incubation.

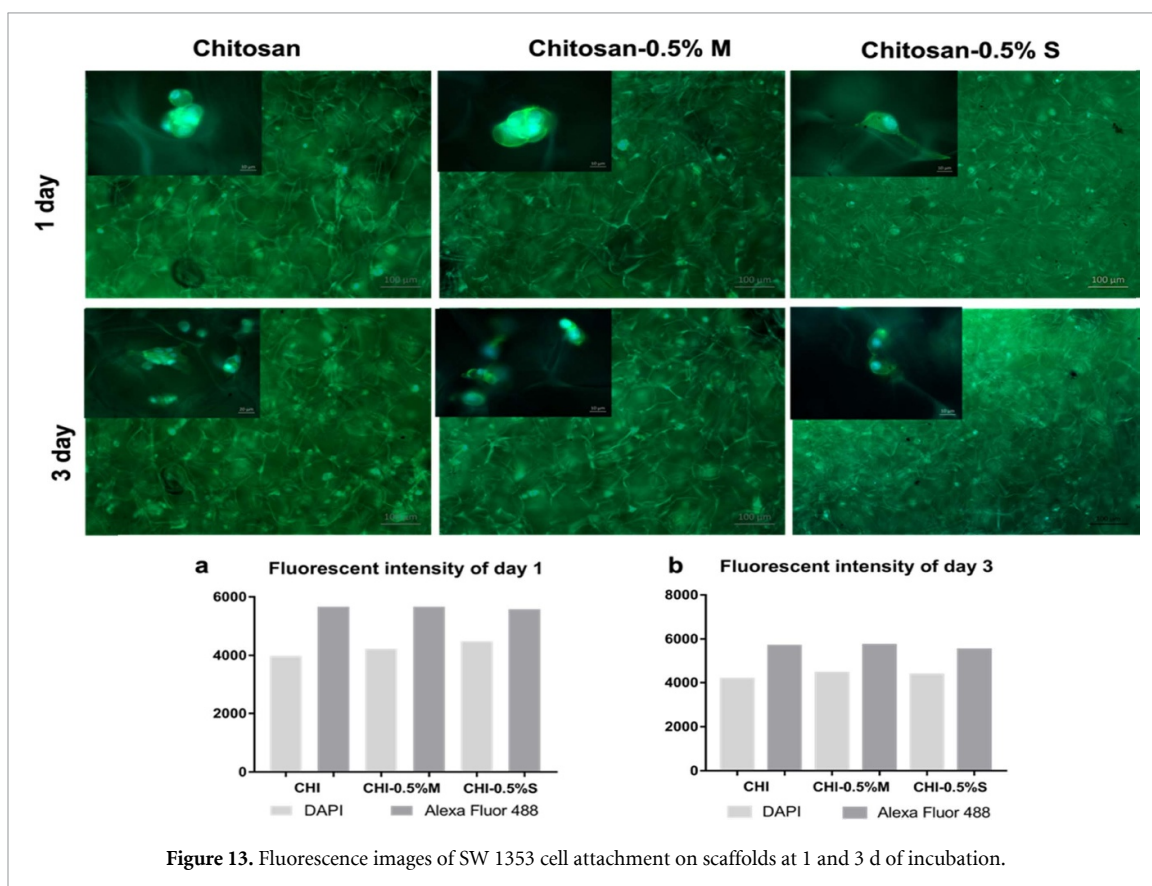

Figure 13. Fluorescence images of SW 1353 cell attachment on scaffolds at 1 and 3 d of incubation.
